

SUPPLY CHAIN POLICY

Roche Audio Visual are committed to carrying out procurement activities in a responsible manner and to entering into agreements and contracts with suppliers that share and adhere to our vision when it comes to the following responsibilities:

- Environmental
- Social
- Ethical
- Economical

Preserving a sustainable supply chain plays a pivotal role to the success of our business. Our supply chain is limited to The Channel which means Roche Audio Visual sources goods and services from Manufacturer accredited Distributors. The relationships we have established with our supply chain partners over the past 50 years means we have access to peers in each of the companies we contract with, influencing the right behaviour and increasing transparency within our supply chain operation.

To demonstrate our commitment, current and potential suppliers are asked to commit to Responsible / Sustainable procurement within their organisations and to acknowledge their compliance with the principles of the Sustain Supply Chain Code of Conduct, with respect to their organisation and their supply chain.

We strive to create account mapping with the companies we work with, enabling access to the right subject matter experts & escalation points at the right time. As recommended by the government we also monitor the Transparency in Supply Chains Platform: [TISCREPORT.ORG](https://www.tiscreport.org)
